## 分数分布

100分 0人 (0.00%)

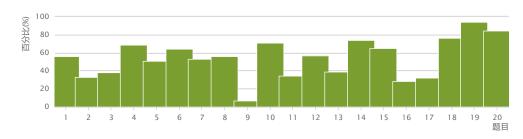

80-99分 1人 (2.27%)

60-79分 11人 (25.00%)

0-59分 32人 (72.73%)

未参加考试及待批阅的学生均以0分计算

## 考题正确率

### **一.单选题** (题数: 10, 共50.0分)

1	Internet belongs
A,	LAN
В、	MAN
C.	WAN
D,	www
正确往	答案: C 正确: <u>22</u> 人 错误: <u>17</u> 人 正确率: 56.4% 查看统计详情
2	Which of the follow networks is easy to maintain?
A,	Bus topology
В、	Ring topology
C.	Net topology
D,	Internet
正确领	答案: A 正确: <u>13</u> 人 错误: <u>26</u> 人 正确率: 33.3% <u>查看统计详情</u>
3	
	Bluetooth is popular to build which kind of network?
A,	WAN
В、	PAN

C.	LAN									
D,	RFID									
正确:	答案: B	正确:	15人	错误:	<u>24</u> 人	正确率:	38.5%		查看统计详情	
4	Which service	of the f	ollowing is o	connection	less?					
A,	Call a phone									
В、	TCP									
C.	circuit switch									
D,	sending text n	nessage								
正确:	答案: D	正确:	27人	错误:	12人	正确率:	69.2%		查看统计详情	
5	If you try to build a LAN for you home, which one is the best device to be chosen?									
A,	Switch									
B <sub>x</sub>	Repeater									
C′	Bridge									
D,	Fiber									
正确:	答案: A	正确:	<u>20</u> 人	错误:	<u>19</u> 人	正确率:	51.3%		查看统计详情	
6	Why does net	work ap	ply Hierarch	ies layers?						
A,	They are real I	ayers in	Network.							
В、	Idea of Conqu	er and s	solve.							
C.	They are all no	one.								
D,	Human likes									
正确	答案: B	正确:	<u>25</u> 人	错误:	<u>14</u> 人	正确率:	64.1%		查看统计详情	
7	Which one owns the highest transmission speed among the following transmission media?									
A,	Coaxial copper									
В、	Twister									
C.	Fixed telephor	ne line								
D,	Optical fiber									
正确:	答案: D	正确:	<u>21</u> 人	错误:	<u>18</u> 人	正确率:	53.8%		查看统计详情	

8	Which may the reason that makes OSI model still important?									
A,	Standardization									
В、	Better than TCP/I	P mode1								
C.	Facilitates learn	ing and teaching	5							
D,	All of the above									
正确	答案: D 正	确: <u>22</u> 人	错误:	17人	正确率:	56.4%		查看统计详情		
9	Why is TCP/IP mo	del popular?								
A,	Standardizes inte	rfaces								
В、	Allows modular	engineering								
C.	Compatibility									
D,	All of the above	e								
10	s remote area need	确: <u>3</u> 人 ed to be monito	错误: red, such a		正确率: g humidity, powe	7.7% er of wind, atmosphe	re pressure, which kind of netv	查看统计详情 vork is the best		
A,	RFID									
В、	IOT									
C.	Wireless sensor ne	etwork								
D,	Wireless Lan									
正确	答案: C 正	确: <u>28</u> 人	错误:	11人	正确率:	71.8%		查看统计详情		
二.多道	<b>も题</b> ( 题数: 7, 共35.0	0分)								
1	which are correct	among the follow	wing descr	iptions?						
A,	Protocol is involved at least two ends.									
_	Protocol is involve	ed at least two er	nds.							
В、	Protocol is involve Service is usually p			to the higher	layer.					
B、 C、		provied by the lo	wer layer t	to the higher	layer.					
	Service is usually p	provied by the lo	ower layer t ence.	to the higher	layer.					

What differences of TCP/IP architecture and OSI architecture?

计算机网络(英文)-统计详情 The number of layers B、 TCP/IP is the fact of Internet model, while OSI is more to be used for teaching and research. TCP/IP model is more compatible than OSI model. Both of them are no physical layer. 正确答案: A B C 半对: 23人 57.7% 正确: 11人 错误: 5人 正确率: 查看统计详情 3 What are correct descriptions of connection and connectionless services? Both of them have three stages. IP is connectionless protocol Connectionless service is lesss reliable than connection-oriented service. Connectionless service is needed to be acknowledged. 正确答案: B C D 错误: 9人 正确率: 正确: 1人 半对: 29人 39.7% 查看统计详情 Please choose new applications of networks. Linking with AI Driveless car AR+VR D. 5G 正确答案: A B C D 正确: 19 人 半对: 20人 错误: 0人 正确率: 74.4% 查看统计详情 5 Comparing with transportation system, please choose the problems of computer network face. Traffic jam Network congestion Stop and go traffic light Flow control Taking alternative path Alternative route Following a route to school Routing algorithm

正确答案: A B C D 正确: <u>12</u>人 错误: 0人 正确率: 65.4% 半对: 27人

6 Please match the following senario with network layers.

US President Downnald Trump is now visiting India.

- A、 President Trump and Prime Minister of India Shri Narendra Modi (莫迪) are similar like network layer of computer network.
- President Trump and Prime Minister of India Shri Narendra Modi are similar like application layer of Network.
- They are state secretaries provied services for them.

D. Formal invitaion is similar like physical layer before Trump's visiting. 正确答案: B C 正确: 6人 半对: 10人 错误: 23人 正确率: 28.2% 查看统计详情 The applications of RFID are. Monitoring pandas in forest B. Supply Chain Management Access control Livestock monitoring and tracking 正确答案: B C D 正确: 2人 半对: <u>21</u>人 错误: 16人 正确率: 32.1% 查看统计详情 三.判断题 (题数: 3, 共15.0分) service primitives(服务原语) for implementing a simple connection-oriented service. 正确: 30人 错误: 9人 正确率: 76.9% 查看统计详情 正确答案: 正确 2 Protocol is a set of rules that define the format and meaning of the frames, packets, and messages exchanged between peer to peer at the same layer.

正确答案: 正确 正确: 37人 错误: 2人 正确率: 94.9% 查看统计详情

3 Communication subnet includes: physical layer

data link layer network layer

正确率: 84.6% 正确答案: 正确 正确: 33人 错误: 6人 查看统计详情
